COMMENCING EACH DAY AT TWO P. M.

PREFACE

The late W. B. Guy has been favorably known to American collectors and dealers for many years as a close student in the varieties of the American Colonial coins, United States cents and half cents. The result of his labors are here offered and afford present day collectors an opportunity to add to their collections in these series. To any one who has sought examples of the different dies in the Colonial and State coins, in the U. S. cents and $\frac{1}{2}$ cents, it must be readily apparent what an opportunity this is, and I hope it will receive the attention it deserves.

It is daily becoming more and more difficult to procure examples of many of the varieties which have in the past been considered "scarce," and I believe the absence in any dealer's stock and from the collections offered at public sale shows that there are a great many which it can be conservatively termed rare and difficult to procure. While the space of an auction sale catalogue does not permit of such a detailed description as to show all the differences in the several dies, yet, I think, upon close examination of the coins in this collection, they will be found to be from different dies. It has been my aim to carefully and accurately describe the coins, noting defects and giving the color of the coin; in fact, the aim is to depict the specimen so the bidder shall have some aid in the forming of his idea of its value to him. Any further information about the coins other than that supplied by the catalogue will be gladly given by me, and wherever practicable,

the coin desired will be sent to intending bidder if so requested in time, he defraying all transportation charges. Every coin is guaranteed genuine, and this holds good indefinitely. Each lot is sold so much each piece. Bids will be faithfully executed by me for the regular 10% of the *sum purchased*, or by the auctioneers free of commission, but they assume no responsibility and require payment prior to shipment of the goods. Catalogues will be had, priced, after the sale, for 75c., post paid.

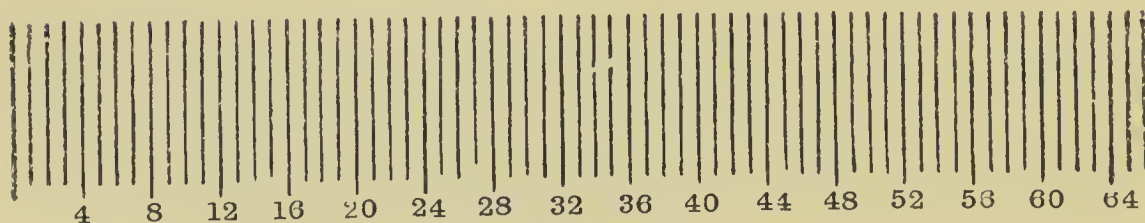

The coins for each day's sale are on exhibition from 9 A. M. to 1 P. M.

Very respectfully,

HENRY CHAPMAN,
Numismatist,

No. 1348 Pine Street, Philadelphia.
